## FOR VICTIMS OF AN EARTHQUAKE IN CROATIA

### HELP US TO HELP THEM

In the times of celebration to welcome the new, better and different year, in the times when all of us are lighting the lights around festive tables full of delicacies - candle and oil lamp light is the only thing brightening the night and warming people in the earthquake hit areas of Croatia. Cities of Petrinja, Sisak , Glina and numerous other villages and settlements of this croatian region have suffered human fatalities and unseen destruction caused by a heavy earthquake of 6.2 degrees Richter.

Let's show once again the great IW heart, humanity and solidarity and help the ones who have, in only a few seconds of this devastating earthquake, lost everything. Our goal is to raise funds to buy a prefabricated house for families who have been left homeless. Even smallest donation is precious to us. We kindly invite IW clubs, districts and individuals to help by donating to the following account with description
